

Anticipatory Action in 2025: A Global Overview

Every year, the Anticipation Hub publishes a report summarizing the scale of anticipatory action worldwide. The Anticipation Hub's partners, as well as other organizations actively implementing this approach, submit the data for these reports, which are collated into tables of: (A1) activations; (A2) active frameworks; and (A3) frameworks under development. These data tables are available online at: <https://www.anticipation-hub.org/global-overview/global-snapshot/overview-reports/overview-report-2025>

Below is a list of the organizational (and other) acronyms and abbreviations used in these tables. Note that where it was not possible to confirm the full name of an organization with the data provider, a 'best guess' is included; where this was not possible, it is listed as unknown. These entries are in italics.

If you have updates or corrections for this list, please contact us at: anticipation-hub@drk.de

Acronyms and abbreviations used in Tables A1, A2 and A3

AADC	AGRI-AQUA Development Coalition
AAE	Association Aïdons l' Afrique Ensemble
AAP	anticipatory action plan / protocol
